SPECIAL NOTES

- *DMPs Dock Master Plans OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.
- **WMPs Wetland Master Plans OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.
- ***SWMPs Stormwater Master Plans OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.
- ****PERs Preliminary Engineering Reports OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

Permit Number:

OCRM-06-273-M

Permit ID:

55435

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT:

KRG Investments, LLC

C/O Sea Island Constructors

4061 Tom Point Road Yonges Island, SC 29449

LOCATION:

On and adjacent to Bailey Creek at Lot 11, Glascow Island Lane, Bailey Island Subdivision,

Edisto Island, Charleston County, South Carolina.

TMS#: 013-00-00-046.

WORK:

The work as proposed and shown on the attached plans consists of constructing a dock and two erosion control devices. Specifically, the dock will consists of a 4' by 95' walkway leading to a 12' by 12' covered fixed pierhead, both with handrails. Ebbside of the pierhead, a ramp will lead to a 10' by 40' floating dock. The applicant also proposes to install a 12' by 12' four-pile boatlift on the landward side of the proposed floating dock. The proposed erosion control device will consist of a two-part structure. The first will be a 3' high by 160' long wooden retaining wall with rip rap along toe. The second structure will be a 3' wide by 217' long riprap revetment, both placed along an eroding shoreline. The purposes of the activities are for the applicant's private recreational use along with erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 24, 2007. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT:

Kathrvn C Goeldi

C/O American Dock & Marine

1533 Folly Rd, D-5 Charleston, SC 29412

LOCATION:

On and adjacent to Hobcaw Creek at 709 Leader Lane, Hidden Cove, Mount Pleasant,

Charleston County, South Carolina. TMS#: 537-13-00-069.

WORK:

The work as proposed and shown on the attached plans consists of adding a boatlift.

Specifically, the applicant seeks to remove an existing single-pile boatlift and add a 12' x 12',

four-pile boatlift. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

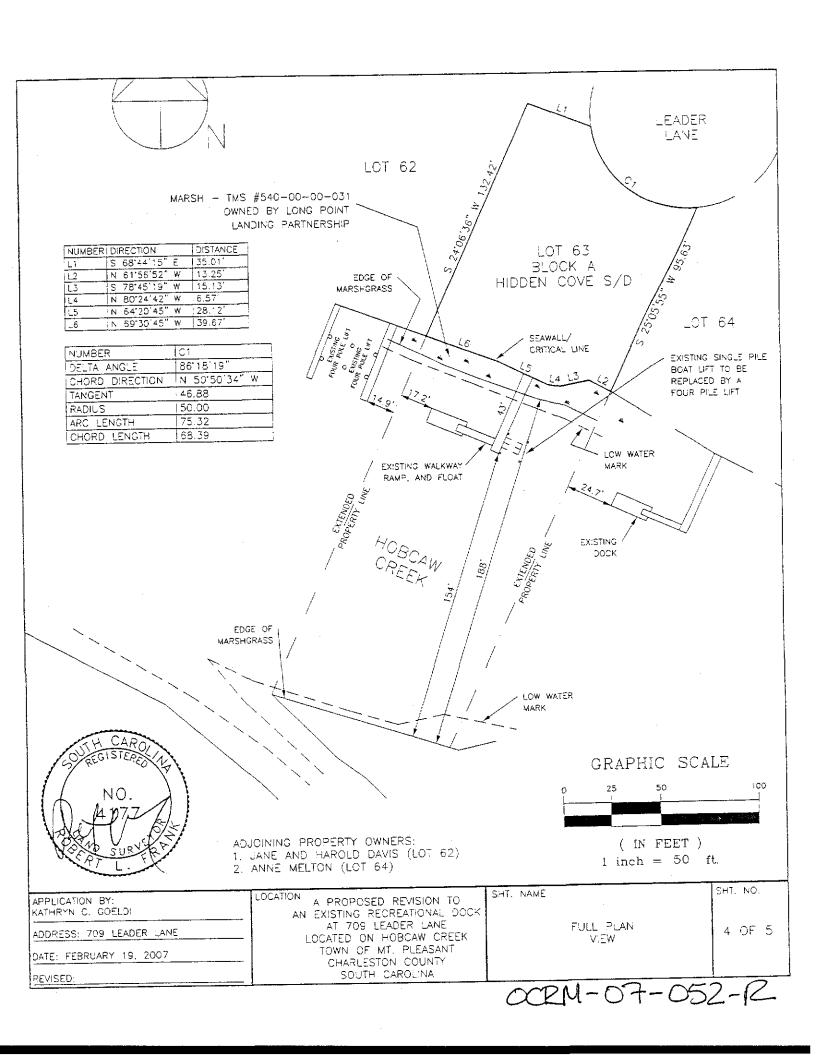

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 24, 2007. For further information please contact the project manager for this activity, Tess Rodgers at 843-953-0233.

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT:

Jennifer E. Renken

C/O John E. Wade, Jr.

PO Box 686

Isle of Palms, SC 29451

LOCATION:

On and adjacent to Atlantic Intracoastal Waterway at 13 Broughton Rd., Charleston,

Charleston County, South Carolina. TMS#: 421-14-00-032.

WORK:

The work as proposed and shown on the attached plans consist of renovating and reconfiguring an existing dock. Specifically, the applicant seeks to increase the walkway from 4' x 414' to 4' x 432' with a slight angle to the ebbside of the channel. The applicant would like to increase the pierhead from 15' x 15' to 16' x 16', with a roof over half of the pierhead. Floodside off of the walkway and pierhead, the applicant wants to add two 3' x 16' ramps that will lead to two 4' x 40' floating docks. Also floodside of the walkway, a 3' x 25' catwalk accessing a 12' x 12' boatlift is proposed to be added. The work as described is for the applicant's private, recreational use. (Note: This is a revision to the original public

notice published on February 9, 2007 due to a realignment of the dock.)

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before March 24, 2007. For further information please contact the project manager for this activity, Amanda Flake at 843-953-0258.

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 9 APRIL 2007

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of constructing a 12'x20' roof over an existing boatiift. In addition, the applicant will use a long arm track hoe to excavate 0.028 (220 cubic yards) acres of material adjacent to the existing docking facility to a depth 5' below MLW. The material will be placed by track hoe into 6'x6'x25' roll off containers each with a volume of 33 cubic yards. The containers will be loaded onto trucks and transported to an upland site located at 2041 West Beargrass Road, Longs Community, Horry County, South Carolina. It is understood that this work is to be conducted on/or adjacent to an area subject to a prism and/or disposal area held by the United States. Appropriate provisions have been included in the permit to ensure the interests of the Federal Government are understood. The purpose of the proposed work is for the owner's private, recreational use.

Your request for drawings should be addressed to the

U.S. Army Corps of Engineers ATTN: REGULATORY DIVISION 1949 Industrial Park Road, Room 140 Conway, South Carolina 29526

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact (0.028) acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are

not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

REGULATORY DIVISION Refer to: P/N # 2007-97-3IH 9 MARCH 2007

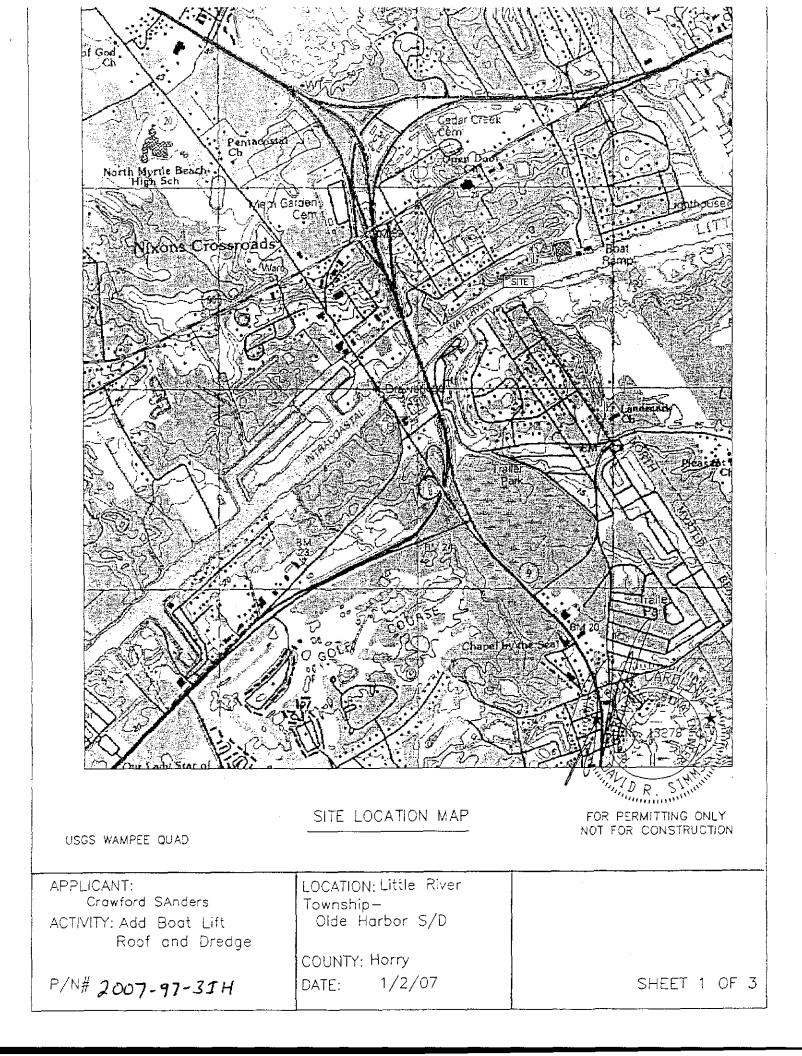

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

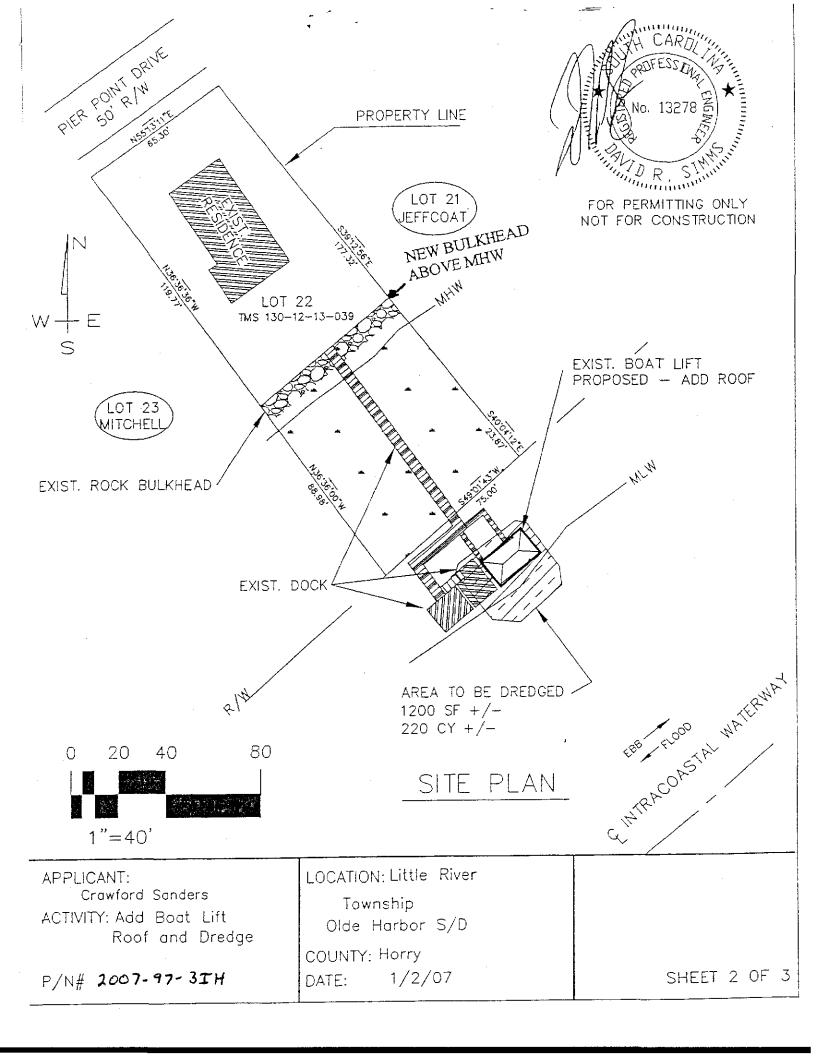

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

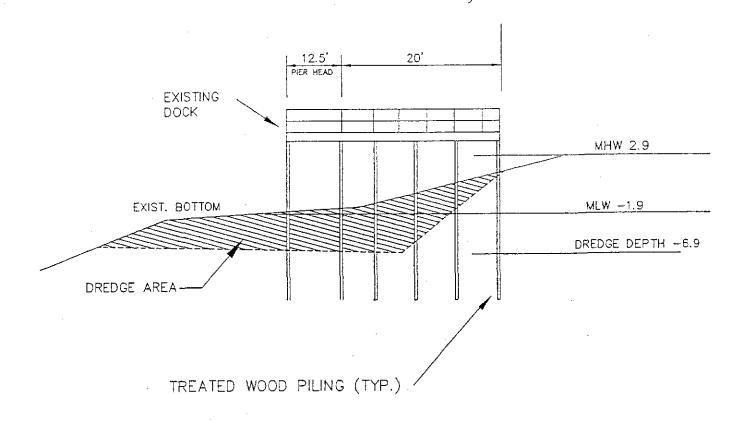

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Rob Huff at 843-365-4239.
